

Insect-a-clear

Fly-Shield

The Insect-a-clear **FLY-SHIELD** range comprises of three models, the **FLY-SHIELD** 1, 2 and 4. It is the ideal alternative to conventional high voltage machines. Models 1 and 2 are suitable for front of house flying insect control where discreet management is required. The Model 4 is suitable for larger areas where suspending the machine gives a massive 360 sq metre approx. coverage.

The flying insects are attracted to the special ultra violet light that is irresistible to flying insects. Once attracted into the **FLY-SHIELD** they will come to rest on a special adhesive coated glue board and become permanently captured. Once the board is full it can quickly and easily be replaced. Once removed, monitoring by a pest controller or hygiene manager is easily undertaken.

The following features are incorporated on the **Insect-a-clear Fly-Shield**

Stylish contemporary fly killer design.

The **FLY-SHIELD** 1 & 2 can be wall mounted or suspended

The **FLY-SHIELD** 4 can only be suspended

All stainless steel construction.

Easy servicing, just remove lift off the shield for easy glue board replacement.

Board life up to 3 months depending on environmental conditions and infestation.

Shatter resistant tube option available.

Designed and manufactured in the UK.

CE approved and formally tested to BSEN 60598-1:2008

2 year guarantee (except lamps and glue board). Terms and conditions apply

Order Codes

FG1CBS	FLY-SHIED 1 with 1 standard lamp.
FG1CSS	FLY-SHIED 1 with 1 shatter resistant lamp.
