Features & Benefits

Controlled Thaw cabinets alternate between circulating gentle heat and refrigeration, via special air ducting and fans, ensuring an even, speedy and safe thaw.

- Easy programme selection - menu driven touch screen lets you simply select the programme to start
- Thaw food safely from -1/+5°C
- Thaw cycle takes approx 7 hours based on maximum capacity and 25mm product thickness
- Once thawing process has been completed, cabinet will remain refrigerated until user removes product from cabinet.
- Thaw cabinets alternate between circulating gentle heat and refrigeration, ensuring even and safe thaw
- Option for cabinet to be used as a refrigerator, if the thawing programme is not in use.
