B Bower

Bower has been designing and manufacturing flying insect control units under its **Insect-a-clear** brand for the pest control and hygiene industries for over 30 years.

Since its acquisition of the UV Light Company in 2000, Bower has also expanded to be one of the largest suppliers of UV lamps in Europe.

Bower is unique in that the entire **Insect-a-clear** range is manufactured by us in the UK, in the same building that houses our lamp sleeving plant.

Bower is a family-run business whose aims and objectives are to supply the pest control industry with not only a machine for every eventuality but to also supply the most comprehensive range of UV lamps available.

As with the other divisions of the business, Bower only sells via its network of pest controllers, international wholesalers and washroom service providers, so if you are involved in these areas, we want to hear from you.

Bower is a major player in three market sectors - pest control, washroom hygiene and hospitality as shown above.

ELECTRIC GRID FLY KILLERS IP Rated

Insect-a-clear

When fly control is needed in wet or damp areas an IP rating is essential

- The IP Rated (IPX4) electric grid model, the professional Lantern, is made out of steel/ stainless steel and is great for BBQ areas and pub gardens etc.
- The IP Rated (IPX5) electric grid model, the T95-IP, is the most popular choice for most internal wet applications

Lantern 18w

VANQUISH

GLUE BOARD FLY KILLERS
Vanquish

17

The Vanquish is a slim-line, discreet yet very efficient glue board fly killer

- Fitted with 2 x 36w high attraction, energy saver lamps
- Fully electronic lighting gear ensuring low power consumption and doesn't require separate starters.
- Uses super-sized glue-board of over 1,240cm² (complete with monitoring squares) protecting up to 360m²
- Anodized aluminium and steel construction looks good and offers excellent corrosion resistance

Energy Saver

GLUE BOARD FLY KILLERS

Vulcan Range

The Vulcan is fully electronic, ensuring minimal power consumption. This means maximum financial savings when compared to similar conventional units.

- The curvaceous, contemporary design and the corrosion resistant, stainless steel front-guard, together have produced a terrific machine. It is ideal for virtually any application (front of house or behind the scenes).
- For maximum attraction the Vulcan is fitted with the Quantum Lamp by Sylvania.
- An IP65 rated unit completes the range
- Energy saving design
- Tools free servicing – ‘lift and lock’ front guard
- 2 or 3 lamp versions
- Shatter resistant lamps fitted as standard
- Super-sized glue board with monitoring squares
- Uses the universal 15w 18" x 1" lamp

The Fly-Shield Range offers probably one of the most popular, discreet, front of house choices, on the market

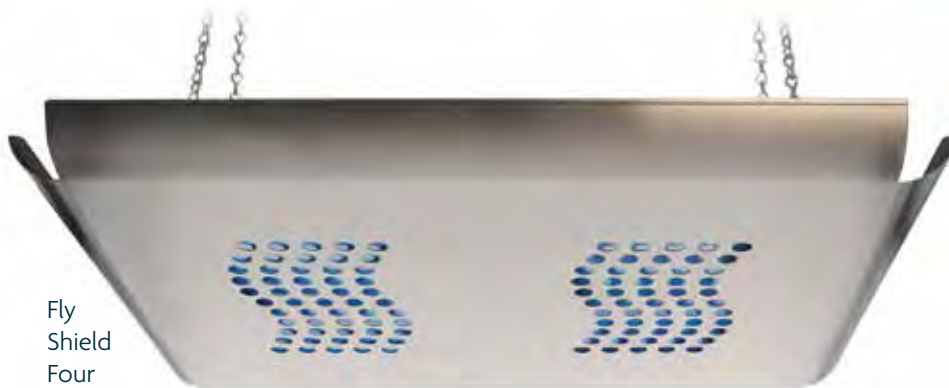

- Like other glue board machines in the Insect-a-clear range these stainless steel machines attract and trap the flying insects on a UV stabilized glue board, without any annoying zap – but the Fly Shield range has been designed to look like a contemporary, stylish wall light
- They are ideally suited to restaurants, coffee shops, sandwich bars, when wall mounted in the case of the Fly Shield 1 and 2, but don't forget that the larger models namely the 2 and 4, are also ideal for larger areas when suspended, such as food factories or supermarkets

Fly Shield One

Fly Shield Two

Fly Shield Four

Fly Shield Four showing lighting and glue board arrangement

FG4SSS	Fly Shield Four with shatter-resistant lamps	360	4 x 18w	LL18WS-0	MG2TRA	65 x 47 x 14

Note: The Fly Shield Four requires 2 boards per change

GLUE BOARD FLY KILLERS
Fly Shield Solo

The Solo and NEW Solo Plus have been specifically designed for discreet, stylish and effective insect control and is ideally suited not only for domestic use, but also for restaurants, reception areas, coffee shops, sandwich bars, to name but a few

- The Solo may be wall mounted or free standing whereas the Solo Plus with its 2 glue boards is a free standing unit.
- The main body is made from corrosion resistant, anodised aluminium, which not only means it is simple to clean but also makes it light and easily portable, if so desired.
- By combining its powerful 20w, energy saving Ultra Violet lamp with its large unobstructed glue board(s), our Insect-a-clear designers have come up with a truly effective unit.

Insect-a-clear
FUSION

GLUE BOARD FLY KILLERS Fusion Range

21

The Fusion 2 and Fusion 4 models have many features that make maintenance quick and simple

Fusion2 36w

- Stainless steel retaining plates simply lift open allowing the glue board to slide from its position and replacement glue boards to slide in just as easily

When it comes to changing the lamps, the front can be removed without the need for tools

- Most note-worthy is the unique 'through-board' design, for maximum attraction. This allows the maximum UV light to be emitted, as the light can shine through the cut-outs in the glue board

The glue boards black colouring limits the visual effect of the entrapped flies

Fusion4 72w

Fusion Range Glue Fly Killers

Order code	Description	Coverage approx. sq.m	Lamps	Lamp code	Glue board	Size in cm W x H x D

GLUE BOARD FLY KILLERS

Glu60 & Glu90

Insect-a-clear
GLU

The Glu60 is available in either stainless steel or epoxy powder coated white and is fitted with 2 x 15w shatter resistant lamps as standard

- It is water resistant to IP65, making it ideal for wet areas
- Supplied with all necessary fittings for wall mounting or suspending. Dust guards are also supplied (not shown)
- Now incorporates an electronic ballast which removes the need for starters and also allows for voltages 110v-240v

The Glu90 is manufactured in bright annealed stainless steel

- Unique two-tiered catchment system ideal for larger areas – up to 180m²
- Available either wall mounted or suspended and dust guards are provided with both models for dusty environments,
- The fold-up yellow glue trays can be fitted with stainless steel covers (see spares on page 30)

Insect-a-clear
X-FLY

GLUE BOARD FLY KILLERS X-Fly Range

23

There are two models in the X-Fly Range, the X-Fly 1 and the X-Fly 2

- The perfect location for either model is on top of wall cupboards or high flat surfaces (such as kitchen cabinets, fridges, shelves, etc)

The units can be neatly sited behind cornice, or for kitchen cupboards without cornice,

can be fitted flush to the cupboard edge – the brushed stainless steel front being the only feature visible from ground level

- The glue board is easy to change by simply un-hooking the front stainless steel plate

PEST CONTROL

Fly Trays & Check-a-note

Insect-a-clear

Order	Description code
MCBTXS	Cluster Box
	In stainless steel for: T35, T65, T100, T160 and Nano 30
	The cluster box will fit the following models: T35, T65, T100, T160 and Nano 30

MSFTXS	Extension tray
	Small: 38 x 54.5 x 4.5cm

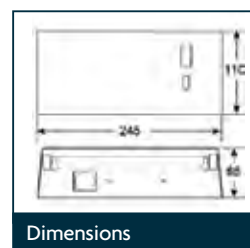

MLFTXS	Extension tray
	Large: 38 x 78 x 4.5cm

MGLUCO	GLU-90 covers
	Stainless covers for the GLU-90 trays

Check-a-note

Made of steel, the Check-a-note uses a BLB lamp to help detect fake bank notes. Simply place the suspect note under the lamp and if the paper glows, it is probably an imitation. Normal UK bank notes remain matt.

Order code	Description
ECANX1	Check-a-note

Terms and Conditions

- 1 All quotations, offers and contracts are subject to the following terms and conditions (**Conditions**). The **Company** means Bower Products Limited t/a The UV Light Company and the **Buyer** means any purchaser of goods (**Goods**) in accordance with these Conditions. By placing an order with the Company the Buyer makes an offer to purchase Goods in accordance with these Conditions. The order is subject to acceptance by the Company by confirmation in writing or by dispatch of the Goods (whichever is sooner), at which stage a contract is formed. Only the parties to the contract may seek to enforce these Conditions.
- 2 There shall be no variations to these Conditions (whether contained in any order form from the Buyer, whether implied by trade, custom, course of dealing or otherwise) unless written agreement has been obtained from the Company.
- 3 The price of the Goods shall be the quoted price, or where no price has been quoted, will be that listed in the current price list on the date of formation of the contract. All prices are quoted exclusive of VAT which will be charged at the rate ruling on the day of dispatch.
- 4 The Company reserves the right to refuse to accept an order for purchase of Goods if the Buyer's credit or payment record is unsatisfactory, unless payment is made in full before dispatch.
- 5 Where a Buyer has an approved account with the Company (at its sole discretion), full payment (without deduction or set off) is due by the end of the month following the invoice date. No cash discounts are allowed. Where no such credit terms apply, Goods are subject to payment in full before dispatch, unless otherwise agreed in writing by the Company.
- 6 If the Buyer fails to make any payment on the due date, the Company reserves the right to: (i) charge the Buyer interest on the overdue amount at a rate of 4% per annum above the Bank of England's base rate from time to time (accruing daily from the due date until actual payment, whether before or after any judgment); and/or (ii) to suspend all deliveries of Goods until payment has been made in full.
- 7 The Goods shall remain the property of the Company until paid for in full and, until title of the Goods has passed to the Buyer, the Buyer shall hold the Goods on a fiduciary basis as the Company's bailee. The Company reserves the right to resume possession, including entering the premises where the Goods are located, without prior notice.
- 8 The risk in the Goods will pass on completion of delivery to the Buyer irrespective of whether title has passed or not.
- 9 Clerical errors and omissions are subject to correction without notice.
- 10 Goods dispatched may not be returned by the Buyer unless the Goods are faulty or with the prior written agreement of the Company. Where the Buyer has incorrectly ordered Goods and the Company has agreed that they may be returned, the Company reserve the right to charge a 15% handling charge to cover clerical and other expenses. All Goods must be properly packaged, labelled correctly, and returned to the Company, carriage paid. The Goods shall be at the Buyer's risk during transit and any damage during transit of returned Goods shall be the responsibility of the Buyer.
- 11 Every effort will be made to keep to quoted delivery dates (including 'next day' deliveries) but the Company will not be liable for any delays or any additional costs how so ever caused and time shall not be of the essence. Every delivery shall be considered as a separate contract, and the failure of any delivery shall not vitiate the contract as to the other deliveries.
- 12 No responsibility can be accepted for damage or shortages unless the Goods are signed for as such on the delivery sheet(s). In all cases, damaged or shortages must be notified to the Company in writing within 24 hours of delivery.
- 13 The Company reserves the right to amend prices without prior notice.
- 14 All Goods are sold with the benefit of any manufacturer's warranty (excluding lamps, starters and glue boards), details of which vary between Goods, which the Company shall use its best endeavours to transfer to the Buyer (including in respect of any parts and components, if relevant). Should any Goods prove to be defective within the relevant warranty period, the Buyer should return them to the Company for repair, replacement or credit, as the Company or any third party manufacturer deems fit (provided that the Buyer has complied with all terms of any relevant warranty). Removal, return and installation costs of any item shall be borne by the Buyer.
- 15 All sleeved lamps sold by the Company are classified as shatter resistant i.e. to reduce the risk of cap detachment and/or ejection of glass fragments in the event of breakage.
- 16 Nothing in these Conditions shall limit or exclude the Company's liability for death or personal injury caused by its negligence, for fraud or for any other matter where it would be unlawful for the Company to limit or exclude its liability.
- 17 Subject to the above Condition, the Company shall in no circumstances whatever be liable to the Buyer (whether in contract, tort (including negligence), breach of statutory duty or otherwise) for any loss of profit or for any indirect or consequential loss and the Company's total liability to the Buyer shall in no circumstances exceed the price of the Goods.
- 18 These Conditions supersede any terms supplied by the Buyer and supersede all prior terms and conditions supplied by the Company, unless agreed by it in writing.
- 19 A waiver of any right or remedy by the Company is only effective if given in writing and shall not be deemed a waiver of any subsequent breach or default.
- 20 If any court or competent authority finds that any provision of these Conditions is invalid, illegal or unenforceable, the relevant provision shall be deemed to be deleted and the remaining provisions shall not be affected. If any invalid, illegal or unenforceable provision can be rectified by deletion, the provision shall apply with the minimum modification necessary to make it legal, valid and enforceable.
- 21 These Conditions and/or any contract subsisting between the Company and the Buyer shall be governed and construed in all respects in accordance with the laws of England and the parties submit to the exclusive jurisdiction of the English courts.
