NEW PRODUCT HIGHLIGHTS

ALL NEW NT SERIES

Our entire NT series has been redesigned and refreshed for 2019.

Building on the success of our best selling NT series and listening carefully to customer feedback, we have updated and redesigned some of the key features of this range.

These changes will increase reliability whilst reducing energy consumption and running costs across the entire range.

Delivering even more value for money and raising the bar in the bottle cooler market once again.

Recessed digital controller with removable controller cover to prevent accidental damage fitted to all NT series coolers.

Easy to clean white aluminium interior with covered evaporator to prevent accidental damage during manual defrost.

White plastic coated non-slip adjustable shelving system on all undercounter black NT series coolers.

Massive increase in capacity across the NT series under counter coolers thanks to a deeper base shelf giving up to **7% more usable volume**.

Chrome shelving with mirror finish stainless steel interior standard on all stainless steel bottle coolers, NT10 & NT20

All NT series bottle coolers now have an energy efficient and environmentally friendly hydrocarbon refrigeration system, which reduces running costs whilst, being kinder to the planet.

UP TO 7% MORE STORAGE

NEW PRODUCT HIGHLIGHTS

CL20 ICEMAKER

A mains fill fully automatic 22kg ice maker, with a 6kg storage bin which produces 'dice' shaped ice cubes.

An easy to use electronic control panel allows the user to adjust ice thickness, and informs the operator at all stages of the ice making process.

A removable condenser filter makes maintenance simple for the end user, prolonging the life of the machine.

NEW

S6C ICEMAKER

A compact and economical fully automatic ice maker, which does not require a drain connection.

The storage bin of the S6C runs at sub zero temperatures meaning whatever ice is produced never melts, cutting down on water consumption.

The small dimensions of the S6C allow for installation under counter or counter top and is front venting allowing the unit to be built in.

NEW

EV SERIES

EV A new range of glass & dishwashers by Prodis. Designed from the ground up to be user friendly, energy efficient, intelligent and hygienic.

The bright LED display can easily be read in low light situations allowing easy operation in pubs, clubs and bars.

User friendly, intuitive and informative. The large LED control panel features a bright colour coded display with easy to read illuminated buttons. This allows for easy operation and makes staff training effortless due to its simplicity.

Combining years of research and development, the **EV-CLEAN** delivers the perfect result every time. The **EV** wash tank is designed without any obstruction to allow for effortless cleaning. Filters, rack guides and wash arms are ergonomically profiled to allow for easy access and removal. The innovative system automatically cleans the wash tank whenever the unit is switched off, making sure your **EV** is ready for use the next day with minimal effort.

Our advanced **EV-FILTER** technology has been developed to keep both small and large dirt particles out of the wash system, delivering excellent results while keeping the components clean. The **EV-FILTER** can be completely disassembled by the end user without the use of tools to make daily cleaning and maintenance easy.

All **EV** machines are fitted with a soft start wash pump which gradually ramps up the power to prevent chipping and breaking of delicate glassware.

NEW

NEW PRODUCT HIGHLIGHTS

XD260C

New for 2019, the XD260C is a compact display cooler designed for places where space is at a premium.

The XD260C features 4 adjustable shelves with ticket strips, a self closing, lockable door, LED lighting and illuminated merchandising canopy.

The exterior and interior is finished entirely in white, providing a fresh and bright appearance.

Fan assisted cooling delivers a temperature range of 2°C to 10°C making this cabinet ideal for drinks and snacks.

NEW

REDESIGNED XD SERIES

Our best selling double door display fridges have been redesigned and refreshed for 2019. The XD701 and XD1201 now have a clean, and bright white exterior finish.

The interior and canopy lighting has been upgraded to twin bright white LED illumination to draw attention to the contents.

Forced air refrigeration delivers an even temperature of +1°C to +10°C making the cabinet ideal for display of food and drink.

NEW

PRICE REDUCTION

Our XD2 heavy duty matching fridge and freezer are now available at a reduced list price.

Forced air refrigeration, automatic defrost, and digital temperature control make them ideal for busier convenience stores and supermarkets.

Customer focused design with self closing doors, shelf edge ticket strips, and twin vertical LED illumination.

Technical Information & Specification

Every effort has been made by ourselves and the manufacturers to verify technical data and display up to date images and descriptions. However, the manufacturers and ourselves reserve the right to change specifications, models and designs without prior notification. Therefore we cannot be held responsible for any such changes, errors and omissions.

Delivery, Damages and Shortages

- Delivery is to mainland UK only. Delivery to islands, highlands and remote areas are subject to a delivery surcharge.
- Damages and shortages must be reported within 24 hours of delivery, failure to report any shortage or damage within this time frame will result in any claim being rejected.

Returns

For a period of 7 days from date of delivery Project Distribution Ltd will accept returns of merchandise and consider refunds or replacements according to the following conditions

- Items are unused, unopened and in their original packing, it is the customers responsibility to return all items at their own expense.
- Items must be returned with a valid RMA number clearly attached to the packaging.
- A refund will be processed less a 25% restocking charge on returned items.
- Returns will not be accepted on special order or bespoke items.

Warranty

- Warranty applies to mechanical breakdowns only. Door seals, glass, cosmetic trims, lights, bulbs and consumable items are exempt. Warranty does not cover installation, commissioning, or adjustments, all equipment must be installed and commissioned by a qualified engineer in accordance with all local bylaws.
- Where an extended parts and labour warranty is offered (over and above 12 months) the equipment must be maintained and serviced in accordance with the manufacturers instructions, failure to maintain the equipment in accordance with the manufacturers instructions will render the warranty void.
- Warranty only applies to the original purchaser/user to whom delivered and is not transferable.

Our warranty will be null and void if

- Service work is undertaken by an unqualified or unauthorised person
- Our authorised service representatives are denied the right to inspect equipment
- Equipment is not paid for within the terms and conditions of supply
- Routine maintenance is not carried out in accordance to the manufacturers instructions

All prices are subject to VAT at current rate. E&OE
